KALPESH CHAUHAN

FULL-STACK WEB DEVELOPER | REACT · NODE.JS · SQL

Gujarat, India • +91 86903 61133 • chauhankalpesh760@gmail.com
Portfolio • GitHub • LinkedIn

PROFESSIONAL SUMMARY

Full-stack web developer experienced in responsive React interfaces, Node.js/Express APIs, and database-backed applications. Hands-on with MongoDB, MySQL, SQL Server, stored procedures, Docker, and API troubleshooting. Focused on maintainable code, reliable data flows, and performance improvement.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap
Backend	Node.js, Express.js, REST APIs, authentication, file processing, integrations
Database	MongoDB, MySQL, SQL Server, stored procedures, indexing, query optimization, log archiving
Tools	Git/GitHub, Docker, Postman, IIS, npm, SSL troubleshooting, production debugging

PROFESSIONAL EXPERIENCE

Software Developer
Brained
- Develop and maintain web features across React frontends and Node.js/Express backend services.
- Build REST APIs, validate request/response flows, and troubleshoot deployment and production issues.
- Work with MySQL, SQL Server, and MongoDB; improve queries and stored-procedure workflows for data-intensive features.
- Support high-volume logs, scheduled archiving, data imports, and performance investigations.
- Use Docker, Git, and Postman for development and debugging; prioritize practical, maintainable delivery.
